

## C-NEWTRAL Doctoral Training 2024

### Candidate Information

<b>Position:</b>	Marie Curie Researcher, Doctoral Candidate (C-NEWTRAL, DC6)
<b>Hosting Institution</b>	University College Dublin, Ireland
<b>School/Department:</b>	Architecture, Planning, and Environmental Policy (& Geography)
<b>Application deadline:</b>	1 March 2024
<b>Job Start Date:</b>	1 September 2024
<b>Salary:</b>	EUR 37,204 (Gross Annual Salary); Monthly Mobility Allowance EUR 540; Monthly Family Allowance EUR 594 if applicable.

\*Please note that the figures provided above are estimates. Exact salary and allowances will be confirmed upon appointment.

### JOB PURPOSE:

As a Doctoral Candidate (DC), to be an active member of a research project team assisting in the delivery of research and training activities of the C-NEWTRAL Network, working on the specific topic of '*Data-Driven Participatory Planning to integrate NbS in Cities*' and required to work towards the expected results of this project (see Additional information below).

The Doctoral Candidate will undertake research in the framework of the project "*C-NEWTRAL: smart CompreheNsive training to mainstrEam neW approaches for climaTe-neutRal cities through citizen engAgement and decision-making support for innovative governance and integrated pLanning*". The Doctoral Candidate will be funded for 36 months through the prestigious Marie Skłodowska-Curie Actions (MSCA) Doctoral Network (DN) programme; an initiative by the European Commission to train creative, entrepreneurial, innovative researchers, who are able to face current and future societal challenges, and will convert knowledge and ideas into products and services for the economic and social benefit of Europe.

C-NEWTRAL is an interdisciplinary network which concerns developing solutions, frameworks and cross-sectoral strategies for citizen engagement and city governance decision-making towards achieving climate-neutral cities in Europe.

### MAJOR DUTIES:

1. Carry out the research and training activities specified by a personal career development plan (PCDP).
2. Conduct research in interdisciplinary aspects of the social acceptance of renewable energy, as set out in the additional information below.
3. Undertake mandatory training programs and secondments as required at the facilities of other consortium members (see <http://www.c-newtral.eu/>).
4. Actively participate in training activities and submit reports in fulfilment of the project requirements.
5. Participate in outreach and dissemination activities promoting the C-NEWTRAL Network project and the Marie Skłodowska-Curie Actions (MSCA) programme including the use of social media, video-diaries, newsletters, etc.
6. Prepare regular progress reports on the performed research and training activities and present the research outcomes at meetings, project workshops, and to external audiences to disseminate and publicise research findings.
7. Work closely with academic and industrial collaborators and facilitate knowledge transfer between the C-NEWTRAL consortium.
8. As a MSCA DN Ambassador carry out undergraduate supervision/demonstrating/teaching duties under supervisor direction and according to university regulations.
9. Study and follow the technical literature including academic papers, journals, and textbooks to keep abreast with the state-of-the-art in the project topical area.
10. Record, analyse and write up results of research work and contribute to the production of research reports and publications.

11. Carry out routine administrative duties as requested, e.g. arranging research programme group meetings, contribute to research programme website, contributing to organisation of C-NEWTRAL project training workshops and events.

#### **Planning and Organising:**

1. Contribute to the drafting of the PCDP and provide regular updates of this plan.
2. Manage own time and meet agreed deadlines.
3. Plan own day-to-day activity within the framework of the agreed research and training programme.
4. Contribute to the planning of research and training activities, reports, and publications.
5. Actively contribute to organisation of outreach activities events such as C-NEWTRAL workshops.

#### **Resource Management Responsibilities:**

1. Ensure research resources are used in an effective and efficient manner.
2. Provide guidance as required to support staff and any students involved with research and training.

#### **Internal and External Relationships:**

1. Liaise with research colleagues and support staff on routine matters.
2. Make internal and external contacts to develop knowledge and understanding and form relationships for future collaboration.
3. Attend and contribute to relevant meetings and training events.
4. Contribute to the project outreach programmes by establishing links with local community groups, industries etc.

#### **ESSENTIAL CRITERIA:**

1. Relevant experience in qualitative/quantitative methods.
2. Sufficient breadth or depth of specialist knowledge in related concepts and available techniques and technologies for investigation of Nature-based Solutions, Participatory Planning, and data-driven research.
3. Willingness to contribute to the School and project outreach activities.
4. Strong analytical and problem solving skills.
5. Ability to logically conceptualise and summarise the research findings.
6. Ability to work proactively and independently.
7. Ability to participate in knowledge transfer and demonstration.
8. Excellent verbal and writing communication skills.
9. Ability to interact with colleagues and staff.
10. Demonstrable intellectual ability.
11. Ability to communicate complex information clearly.
12. Ability to organise resources, manage time and meet deadlines.
13. Be willing and able to perform secondments or participate in training programs at the facilities of other European consortium members (see <http://www.c-newtral.eu/>)
14. Not yet have been awarded a doctorate.
15. Must not have resided or carried out their main activity in Ireland for more than 12 months in the 3 years immediately prior to their selection for this post.
16. Willingness to occasionally work outside core hours, for example during data collection.
17. Be eligible and qualified for enrolment in the PhD programme at UCD.

**DESIRABLE CRITERIA:**

1. Masters Qualification in urban studies, geography, environmental studies, or other related disciplines.
2. Specialisation in nature-based solutions or public participation for planning purposes.
3. Employment or other practical experience of policy, development or other aspect of participatory planning or the integration of nature-based solutions in cities.
4. Placements or work experience in an academic/commercial research related to data-driven participatory planning.
5. Practical experience of applying specialist skills and techniques required for the project.
6. Willingness to assist in undergraduate supervision and teaching.

**ADDITIONAL INFORMATION:**

C-NEWTRAL (“C-NEWTRAL: smart CompreheNsive training to mainstrEam neW approaches for climaTe-neutRal cities through citizen engAgement and decision-making support for innovative governance and integrated pLanning”) is a four year European Training Network funded by Marie Skłodowska-Curie Actions (MSCA) Doctoral Networks (DN).

The C-NEWTRAL Network is made up of 5 European beneficiaries from Ireland, Italy, Germany, Finland, and Spain, and an Associated Partner that will train and host Doctoral Candidates, the UK. 12 Doctoral Candidates will be overall employed to conduct research on how to advance towards achieving climate-neutral cities on different dimensions through citizen engagement and decision-making support.

C-NEWTRAL will also draw on the knowledge and resources of 22 non-academic partners in Poland, Switzerland, Germany, Ireland, the Netherlands, Denmark, Romania, Finland, Hungary, Belgium, Spain, Italy, and the UK. These partners will host DCs for secondments, provide training, and promote and support the work of C-NEWTRAL.

**DC6 Project Title:** Data-Driven Participatory Planning to integrate NbS in Cities

**Objectives:** Despite governments & institutions publicly sharing more data, rigorous understanding of how community organizations use this data is lacking, particularly participatory planning to integrate nature-based solutions in cities. Adopting NbS in urban areas and turning grey to green infrastructures is not mainstream due to insufficient knowledge/incentives for implementation; to tackle this, IPBES promotes wide public/stakeholder participation to elicit a range of nature-related values. Scholars have also identified a need for wider participation to bridge community and higher-level decision-making calling for participatory processes that engage multiple categories of citizens, produce actionable knowledge, & develop more adequate evidence-based policies to integrate NbS in cities. The project objectives are: 1) identify what data is needed for effective participatory urban planning that incorporates NbS; 2) identify how to reduce barriers for citizen data collection to support this data need; 3) create strategies to improve data use by the community (e.g., visualisation, data analysis/modelling); and 4) analyse practices to ensure planning/policy developed or informed with digital tools are just.

**Expected Results:** 1. A scoping review of community use of data for urban planning; 2. a survey development and analysis of data-driven participatory planning with city planners & resident participants in several EU cities; 3. a typology of urban data for EU participatory planning to integrate NbS in cities; 4. a handbook for community environmental data use; 5. an online portal (data dashboard) tested and framework for participatory environmental planning data for EU cities.

**Planned secondment(s): Non-academic:** *Heidelberg City* (Ms. Lachenicht; M15-18) – *Purpose:* understand how cities collect, use, evaluate environmental data for urban planning & policy; explore institutional barriers/ opportunities for data-driven participatory environmental planning; **Academic:** *UHEI* (Prof. Gerhard, M18-23) - *Purpose:* advance NbS and environmental analyses

**Academic Supervision at Host Institution:** Dr. Istrate (UCD); Dr. Auerbach (UCD); **Academic Secondment:** Prof. Gerhard (UHEI);

**Application Procedure:**

The candidate will be selected on the basis of the quality of the application, expertise, work experience, and qualifications. In the first instance, an expression of interest should be lodged containing the following documents (in English) consolidated **into one single PDF** and sent via the website (<http://www.c-newtral.eu/>).

- A current CV (max 2 pages)
- A short cover letter (max 300 words) explaining briefly your motivation and key research experience/achievements that demonstrate independent thinking and your ability to complete a PhD.
- A research outline (max 500 words) related to the DC topic (to suggest how you meet and can develop further the research project described in this ad). If you are applying for up to 3 PhD positions in C-NEWTRAL, you can refer to all, while prioritising your choices.
- Details of 2 referees (names, contact details) who can provide information about your qualifications
- Official Academic Record - Bachelor's and Master's Diplomas and Transcripts
- One work sample demonstrating prior achievement in research, enquiry or debate, e.g. a published paper or software, standards or policy contribution; extract of dissertation or master's thesis;

After an initial screening, shortlisted candidates will be required to attend an online or in-person interview. They may be required to furnish/present a more detailed research proposal comprising literature review, methodology, expected contribution. Only shortlisted candidates will be contacted.
